Previous to my career in post production I worked as a boom operator on feature films and TV dramas including Downton Abbey, I Give It A Year, Broken and Belle.

I have mixed and signed off programmes from Evolutions Bristol, Wounded Buffalo, The Farm, Films at 59 and Aardman Animations, and have my own private studio in Stokes Croft.

I regularly engineer voiceover sessions for TV, and have done so at Evolutions Bristol, Aardman Animations and Wounded Buffalo.

For more information and examples of my work please visit www.membraneaudio.co.uk or get in touch.
