Lighting Camera Operator

dan_read_video@hotmail.com

07912 369201

I have over ten years experience working as a camera operator. I've worked on broadcast shoots, such as Channel Four's documentary 'Helluva Tour', as well as lighting and shooting corporate videos for companies like Intel and Sony. I own a full Sony FS7 camera package, plus extensive audio and lighting gear. I'm available for hire with or without this kit, both at competitive rates.

You can view my showreel and examples of my work at: www.dan-read.com
