Previous to my career in post production I worked as a boom operator on feature films and TV dramas including Downton Abbey, I Give It A Year, Broken and Belle.

I have mixed and signed off programmes from Evolutions Bristol, Wounded Buffalo, The Farm, Films at 59 and Aardman Animations, and have my own studio on Whiteladies Rd for dubbing editing.

I regularly engineer voiceover sessions for TV, and have done so at Evolutions Bristol, Aardman Animations and Wounded Buffalo.

For more information and examples of my work please visit [www.membraneaudio.co.uk](http://www.membraneaudio.co.uk) or get in touch.
