

CURRICULUM VITAE

+44 7809830791

I have 17 years experience in recording high quality audio. In this time I have worked across the board as Sound assistant, boom operator and now location mixer. Having worked on a variety of programmes, from large budget dramas, home and abroad, down too small promos, I have gained many skills in rigging and placing microphones and as an active member of the Association of Motion Picture Sound (AMPS) look forward to capturing sound in difficult conditions relevant to any production while working intimately with a few people or with hundreds.
 Full drama sound kit available.
