Summary

Having over two years of running experience in a wide range of areas, I know what will be required of me in any typical running role. I am still looking to expand my experience and make sure I bring value to any job I am hired for. I always complete a job to the full, knowing the importance of tasks big and small, and how they can impact a production. Settling is never an option for me. I have worked in small and big teams of people, from me and one PD to a whole TV crew, and know what it takes to lead and work effectively.
