I have extensive experience as a Lighting Cameraman, working in both the broadcast and corporate sectors. I have worked across a variety of genres including Factual Documentary, Observational Docs, Promo's Current Affairs, Arts & Entertainment and Natural History.

I am familiar with all current recording formats and regularly shoot with the C300, F55/F5 and PMW500 cameras, as well as the specialist Photron hi-speed camera. Even though a lot of my work is as part of a PSC crew, I am equally as comfortable working on large OB's – both rigging and recording, as well as on multi-camera studio shoots. I am a confident self-shooter and have produced videos for clients in the UK and abroad, often being asked to take publicity stills as well. These include Lewisham Council (UK), Eko Atlantic (Nigeria), The Latsis Foundation (Greece) and Norman Carr Safaris (Zambia). I have good knowledge of Final Cut Pro/Adobe Premiere and can edit to a high standard. I am also comfortable exporting and uploading files of different formats to various ftp sites.

I have also rigged and operated remote cameras in various locations and am also familiar with a range of mini-cams and specialist cameras for high speed, time-lapse & macro filming.

I also hold a HSE Pro Scuba (Part IV) license with a valid medical, a PADI Divemaster qualification and have completed a BBC approved Hostile Environment training course.
